Strain	FF Weight	Melt Yield	RTH	RTR	Press %	Rosin Yield	Notes

Notes / Reminders:

1. All calculations are in the 73-159 micron range, unless otherwise stated.
2. The data represents 3 washes per cycle unless marked "**Phenohunt**", which then represents 2 washes per cycle.
3. All plants were washed within 5 days of being frozen.
4. Log all data **as soon as** you receive it.
5. Don't forget to **HAVE FUN!**
